What are the strengths and weaknesses of your instructor?

I really appreciated Giovanna being attentive to the students and checking in to make sure the pace was understandable and for going through examples in depth. It would have been nice if there was a little bit more participation in class - for instance asking students how they'd answer a question or doing examples themselves.

1 response

I really like how she went over the examples step by step! I especially like the def-theorem-example set up. I think using the ipad that showed the work was really helpful and felt like an actual class whiteboard.

1 response

Giovanna is great! She is an excellent teacher and explained mathematical concepts to me in a way that finally makes sense. She was also very engaging despite the online format.

1 response

In general good the only real problem was it could be a bit fast but there was a time constraint

1 response

Giovanna was a fantastic teacher, but some of her handwriting was confusing at times.

1 response

Giovanna was very clear and helpful. Answered all our questions and was engaging.

1 response

Great instructor! Patient, passionate, and caring for her students.

1 response

Friendly, knowledgeable, patient, adaptable

1 response

She worked really well in the zoom format
